**100% NEW AXLES**

SurTrack ATV & UTV CV Axles are engineered in our state of the art manufacturing facility. Manufactured with the highest quality materials and engineered to hold up in the most rigorous conditions. Our goal is to provide our customers with an ATV CV Axle & UTV CV Axle that will withstand rough terrain, water, mud and sand.

Brand new construction with precision machined and heat treated center-shafts, cv joints, bearings and races.

Designed from the ground up to meet and exceed all OEM requirements in fit, form and function.

All CV Joints are packed with High-Temperature, High Performance moly grease.

CV Axles are manufactured with high quality neoprene rubber boots to protect against off-road conditions and fastened with stainless steel straps.

Our CV Axles are fully assembled for ease of installation.

All CV Axles come with all necessary hardware for professional installation.

All new designs are torture tested to failure to ensure maximum durability.

Manufactured entirely in our state-of-the-art ISO9001:2008- AND TS1649:2009 certified manufacturing facility.

**One Year Limited Warranty**
